

Engineered for Safety

Pentalift TLH-Series Lift Table

Description:

Pentalift TLH-series tandem lift tables are heavy-duty, hydraulic scissor lift tables with load capacities ranging from 10,000 to 40,000 lb. They are available with various platform sizes from 48" x 180" to 96" x 240" with a common low height of 15" for most models. The 40,000 lb. capacity table has a low height of 22". Travel for the TLH-series can be specified at 50" or 59" (40,000 lb. table has travel of 59").

Applications:

TLH-series tandem lift tables provide heavy-duty lifting capacity with a wide range of platform sizes. They are ruggedly built to meet the demands of various applications in manufacturing, processing and distribution operations where heavy loads of longer length are required to be lifted and/or positioned.

STANDARD FEATURES:

- Scissor legs are solid steel, one piece construction with precision reamed holes for accurate alignment and table operation
- Lubricated for life, maintenance-free bearings at pivot points
- Exclusive PentaFLOW hydraulic bypass cylinders
- Lagging holes in frame
- Straight toe guards suitable for surface mounting (Shown)
- Remote hydraulic power unit
- 230-460-575/3/60 TEFC motor
- Pre-wired NEMA 12 motor control
- Pre-wired NEMA 12 push button on 10' of straight cord
- Hinged integral maintenance stand
- Highly visible, detailed safety and operation decals for greater visibility and safety
- Table finished in Pentalift gray enamel

OPTIONS:

- Non-standard platform sizes
- Hydraulic power units up to 10 hp.
- Accordion bellows
- Hydraulic velocity fuse
- Guarded foot pedal control
- Safety trip bars
- Up travel limit switch
- Wall-mounted push button station
- Sure stop valve
- Bevel toe guard suitable for pit mounting
