

Engineered for Safety!

Pentalift LH-Series 12" Low Height Lift Tables

Description:

Pentalift LH-series 12" low height lift tables are heavy-duty, hydraulic industrial scissor lift tables. LH-series 12" lift tables are available in capacities ranging from 3,000 to 15,000 lb. Travel heights can be specified from 50" to 59" with platform sizes available from 48" x 84" to 96" x 144".

Applications:

Pentalift LH-series 12" low height lift tables are engineered and built to perform reliably in applications requiring higher capacity load handling and a broader range of operating travel. LH-series 12" lift tables are well suited for use in various manufacturing, printing and processing operations. They can be integrated into material handling systems applications.

STANDARD FEATURES:

- Scissor legs are solid steel, one piece construction with precision reamed holes for accurate alignment and table operation
- Lubricated for life, maintenance-free bearing at pivot points
- Exclusive PentaFLOW hydraulic bypass cylinders
- Straight toe guards suitable for surface mounting
- Remote hydraulic power unit
- 230-460-575/3/60 TEFC motor
- Pre-wired NEMA 12 motor control
- Pre-wired NEMA 12 push button on 10' of straight cord
- Hinged integral maintenance stand
- Highly visible, detailed safety and operation decal for greater visibility and safety
- Table finished in Pentalift gray enamel

OPTIONS :

- Non-standard platform width
- Non-standard platform length
- Guarded foot pedal control
- Up travel limit switch
- Wall-mounted push button station
- Push button with coil cord
- Sure stop valve
- Hydraulic velocity fuse
- Safety trip bars
- Accordion bellows
- Hydraulic power units up to 10 hp.
- Air motor with foot pedal control
- Bevel toe guard suitable for pit mounting (shown)
