

PENTALIFT EQUIPMENT CORPORATION

Engineered For Safety !

Application Designed: Pentalift All Terrain Vehicle Assembly Carrier

Internationally known manufacturer of Agricultural and Construction equipment recently entered into the ATV market. The ATV, weighing approximately 2000 lbs, is assembled on a moving production line.

The production line features approximately 30 Pentalift Portable Lift Tables.

To increase productivity and provide ergonomically correct positioning the lift tables are designed to raise, lower and tilt the ATV into various positions during the assembly process. The Assembly Cart can be operated from either side during the assembly process and features a “bump” bar, should the Assembly Cart bump bar contact any object (for safety reasons) the drive mechanism automatically disengages. The Assembly Cart is DC powered with an onboard 115/1/60 Battery Charger.
